Project No. 30907

Honorable Allen W. Dulles
Director
Central Intelligence Agency
Washington 25, D. C.

Dear Mr. Dulles:

In connection with our studies of communities where adequate and suitable space for efficient and economical operation of the Government is needed we are tentatively considering a project for Syracuse, New York.

In order to ascertain current over-all space requirements for the community and to arrive at the most feasible means for satisfying Federal needs, it will be appreciated if you will submit, in duplicate, the required data in accordance with the attached format. In the event you will require space for specialized functions which preferably remain in leased space, please indicate this need specifically.

It is deemed advisable that we be prepared for any eventuality which might arise, as the result of enabling legislation in the current Session of Congress, by having on hand a number of desirable projects, the accomplishment of which can be fully justified. It will be appreciated, therefore, if you will submit the requested information directly to this office as promptly as possible.

Sincerely yours

(Signed) William A. Schmidt
